

TSSC RE-OPENING ROAD MAP

The Road Map is shown as a series of Phases, reflecting the change in the status of the Pandemic in the UK, and the consequent changes in activity in the Club that then become possible. More detailed information about each phase will be published as the Club progresses through the phases and we learn how best to carry out the various procedures. While the Road Map may change as Government guidance adjusts it is quite possible that it may be necessary to backtrack to an earlier phase if the status of the pandemic deteriorates.
